15.Multidisciplinary / interdisciplinary

Bharathi Women's College is dedicated to fostering holistic development among its learners through a multidisciplinary approach to curriculum design. The college offers a range of core, supporting, and non-major elective courses that blend topics from both the humanities and sciences. This framework, built around a choice-based credit system, enables students to select courses aligned with their interests and supports multiple entry and exit options. In the postgraduate and research programs, students have opportunities to engage in multidisciplinary research through project work, internships, and other research activities. Furthermore, a mandatory service learning project in one of the courses encourages students to identify community issues and develop viable, multidisciplinary solutions, enhancing their practical application of knowledge. For UG students group project introduced in III year.

CURRICULAR ASPECTS	
1.1 - Curriculum Design and Development	
1.1.1 - Curricula developed and implemented have relevance to the local, national, regional and global developmental needs which are reflected in Programme Outcomes (POs), Programme Specific Outcomes (PSOs) and Course Outcomes (COs) of the various Programmes offered by the Institution.	
Established in 1963-64, Bharathi Women's College, Chennai, has been a cornerstone of women's education for over five decades. The college offers 13 undergraduate, 13 postgraduate, five M.Phil., and six Ph.D. programs, with a strong commitment to empowering women, particularly from underprivileged backgrounds, through a curriculum that integrates values and career-oriented education. This mission aligns with the institution's goal of fostering	

integrity and shaping responsible citizens prepared for global engagement.

The curriculum is designed under the guidance of the University Grants Commission (UGC), Tamil Nadu State Council for Higher Education (TANSCH), and the University of Madras, undergoing revisions every three years to remain relevant to societal advancements. The most recent comprehensive update for the academic year 2023-24 reinforces the principles of Outcome-Based Education (OBE), with a structured focus on Programme Outcomes (POs), Programme Specific Outcomes (PSOs), and Course Outcomes (COs). This revised syllabus ensures alignment with local, national, and global needs, incorporating feedback from students, parents, alumni, and faculty to enhance its effectiveness and impact.

1.3 - Curriculum Enrichment

1.3.1 - Institution integrates cross-cutting issues relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability, and Human Values into the curriculum

Bharathi Women's College (Autonomous) has expanded its curriculum

to include courses such as Environmental Studies, Value-Based Education, Personality Development, Computing Skills, Communication Skills, and interdisciplinary non-major electives, enabling students to engage with diverse academic disciplines. Environmental and sustainability concepts are not only integrated into the syllabus but also actively promoted through initiatives like the "Go Green Club."

Value-based education is woven into the curriculum to instill core ethical principles, while extracurricular activities such as NSS, NCC, RRC, and YRC help students develop positive attitudes, motivation, and behavioral skills. Courses on professional ethics emphasize adherence to personal and professional standards, guiding students in ethical decision-making.

With nearly 300 courses addressing cross-cutting themes, the college remains committed to fostering social justice, responsibility, compassion, environmental consciousness, and sensitivity—aligning with its vision and mission.

2.2 - Catering to Student Diversity

2.2.1 - The institution assesses students' learning levels and organises special programmes for both slow and advanced learners.

The Tutor-Ward system facilitates a deeper understanding of students' needs by enabling tutors to identify and address their challenges effectively. This system fosters closer engagement, enhancing opportunities for empathy and support. Various methodologies, including tests, quizzes, and group discussions, are employed to assess and assist students.

Slow learners are identified and provided with additional support, including remedial coaching classes conducted periodically to reinforce their understanding of concepts and theories. Peer learning and group learning are encouraged, demonstrating positive outcomes. The effectiveness of these interventions is assessed through students' performance in subsequent tests, assignments, and group discussions. Additionally, personal counseling is offered to slow learners to support their academic progress.

Advanced learners are encouraged to actively participate in association meetings, seminars, group discussions, and

competitions within and beyond the campus. Students with exceptional potential are identified and guided to compete at intercollegiate, university, regional, and national levels. They also receive guidance on effectively utilizing library resources.

At the postgraduate level, internship programs are integrated into the curriculum, providing students with valuable opportunities to refine their skills and translate academic knowledge into practical experience. Educational tours are organized when necessary to enhance experiential learning.

2.3 - Teaching- Learning Process

2.3.1 - Student-centric methods such as experiential learning, participative learning and problem-solving methodologies are used for enhancing learning experiences:

Experiential Learning

To enhance students' experiential learning, faculty employ diverse teaching methods such as role play, performing arts, dramatization, and quizzes. These interactive techniques follow a practical approach, enriching students' understanding and engagement with the subject matter.

Participative Learning

Participative learning is fostered through group projects, discussions, industrial visits, internships, field visits, and club activities. Students actively engage in seminars,

conferences, and workshops both within the college and at other institutions. Additionally, the college regularly organizes seminars, workshops, and conferences to provide students with exposure to emerging trends and developments.

Problem-Solving Methods

Problem-solving is a critical skill essential for both higher education and career placements. It encompasses four cognitive levels:

- K1: Remember and recall concepts
- K2: Understand and explain learned material
- K3: Apply acquired knowledge in practical scenarios
- K4: Analyze and solve problems based on learned concepts

Students receive periodic assignments to strengthen their foundational skills (K1 & K2), while mini-projects and group projects reinforce the application of concepts (K3). Participation in seminars, conferences, and workshops further enhances analytical skills (K4). Additionally, club and association activities contribute to developing practical problem-solving abilities.

2.3.2 - Teachers use ICT-enabled tools including online resources for effective teaching and learning

The ICT tools allow the teachers to produce and modify resources quickly and easily. Commonly used ICT tools include computer/laptop, internet/software, LCD projector, and interactive whiteboards. With the help of ICT tools, one can access the vast resources available in various web pages. In the case of literature programmes, ICT tools play a vital role in imparting communication skills. These tools make the communication easier, thereby motivating the students communicate voluntarily. The latest addition in the list of ICT tools is the video/audio recording devices and software. The slow learners can be easily motivated through such interactive sessions taught using three dimensional pictures and videos, as they help them understand the

scientific concepts in a better manner. In the case of research students, ICT tools have become inevitable for searching resources to carry out a thorough literature survey and presenting their findings during viva-voce. In the current pandemic situation, real time class rooms have been in all sense replaced by the virtual class rooms such as Moodle platforms and Google class rooms. With the help of these virtual class room tools, the day-to-day class room activities such as teaching, conducting tests and quiz, circulating notes/resources to the students and allotment of assignments are carried out easily.

2.3.4 - Preparation and adherence to Academic Calendar and Teaching Plans by the institution

The academic calendar is designed by the Calendar committee which comprises of a team of faculty headed by the Principal. Academic calendar provides the following important information: Brief history of the institution Programmes offered by the institution Fee structure for various programmes Rules and regulations to be followed by the students Requirement of minimum attendance List of teaching and non-teaching staff Details of all the Governing committees Details of various clubs Details of scholarships Guidelines for Continuous Internal Assessment Important dates/events General time table for the academic year The Academic calendar is devised taking into account the general plan of the

affiliated university. Apart from the above-mentioned information, the academic calendar also provides the college contact information, format of bonafide certificate, and space to the students for filling their own timetable. Academic calendar is distributed to the students and the teaching/non-teaching staff of the college within one week after the reopening of the college. Teachers are instructed to complete 30% of the curriculum before the date of the First Internal test, another 30% of the curriculum before the Second Internal test, another 30% of the curriculum before the third internal test and the remaining 10% before the model exam

2.5.3 - IT integration and reforms in the examination procedures and processes including Continuous Internal Assessment (CIA) have brought in considerable improvement in the Examination Management System (EMS) of the Institution

The office of the Controller of Exams is instrumental in streamlining the conduct of the examination and evaluation processes. The Choice Based Credit System was introduced from the year 2008. Student progression is continuously monitored through Continuous Internal Assessment (CIA), Model Exam and Semester End

exam. The components of CIA for theory is with a weightage of 25 %. The End Semester Assessment (ESA) carries 75% weightage, where the question pattern is descriptive. However, practical examinations carry 40% weightage for CIA and the remaining of 60% weightage is on ESE. For the semester end examinations, external question setting and external valuation are adopted. Special examination is conducted for the students who have passed all subjects but failed in only one in the final semester examination. In such case result is published within 10 days for the benefit of the students. There is provision for re-totalling and revaluation. The COE's office functions effectively with the introduction of complete Automation (without any outsourcing) from 2010-2011. This includes Preparation of Exam Schedule, Hall Ticket generation, seating galley, Recording of Internal and External Marks, Final mark report, Result Galley, Result Summary, Mark Sheet and course completion certificate. The automation of the office of the Controller of Examinations speeds up the process of examination framework and the publication of results.

2.6 - Student Performance and Learning Outcomes

2.6.1 - Programme Outcomes and Course Outcomes for all Programmes offered by the institution are stated and displayed on the website and communicated to teachers and students

Designing our curriculum is centered towards achieving the vision of the College. The curriculum is framed, keeping in mind, the evolutional needs of the society and also in rapport with the guidelines proposed by the UGC, TANSCHER and University of Madras (Parent University). A plan on diverse activities to empower the students to excel on the global scale is considered while designing the curriculum. Major curriculum revision has been carried out once in every three years. During the latest curriculum revision done in the year 2019-2020, our attention has been focused on Outcome Based Education which is contemplated in the Programme Outcomes (POs), Programme Specific Outcomes (PSOs) and Course Outcome (COs) that in turn is reflected in the syllabus. The Board of Studies then deliberates on the draft and approves the syllabi. The Academic Council deliberates and ratifies the syllabi of various programmes which is finally approved by the Governing Body. All the Departments receive a

booklet of the syllabi containing POs, PSOs and COs in the beginning of the academic year. Downloadable copies of syllabi available on the college website to ensure quick and easy access. At the beginning of the academic year, fresher's are briefed about POs during the induction programme and PSOs and COs at the departmental level. Tutors or faculty handling the course take up the responsibility of detailing the students about the features of COs.

2.6.2 - Attainment of Programme Outcomes and Course Outcomes as evaluated by the institution

Assessment of the Programme Specific Outcomes is evaluated through Primary and Secondary modes. Primary mode: The Continuous Internal Assessment (CIA) and End-Semester Examination (ESE) are the prime tools for evaluation of PSO and CO attainment. The internship is made compulsory for all PG programmes where the Industry evaluates the student's performance. Experiential learning by organizing workshops/seminars/conferences/value added courses/ short term courses is also used to evaluate students' organizational and leadership skills. The involvement of the students in extension activity and their impact on community also helps attain PO. Evaluation of attainment of PSOs for Primary assessment mode is as follows: The CGPA score is one of the important measures of the extent of fulfillment of the PSOs. The grades obtained in each course indicate the degree of achievement of the COs for that course. In UG and PG programme, has grading system namely, O, D+, D, A+, A, B, C and U. The grade 'U' indicates that students should reappear the course. The performance indicators of final result are Outstanding, Excellent, Distinction, Very good, Good, Average and Satisfactory based on the grade point average. Secondary Mode: Course Outcome Feedback, Graduate Exit Feedback, Industrial Feedback / Employer Feedback, Alumni Feedback system & Parent Feedback were collected from different stakeholders.

RESEARCH, INNOVATIONS AND EXTENSION

3.1 - Promotion of Research and Facilities

3.1.1 - The institution's research facilities are frequently updated and there is a well-defined policy for promotion of research which is uploaded on the institutional website and implemented

Bharathi Women's college has academics with research incorporated in the form of project-based learning at postgraduate level with M.Phil and Ph.D programme in various Departments of Botany, Biochemistry, English, Geography, History, Tamil, and Zoology. The College has well-experienced research faculty members with 37 of them recognized as research guides in the University of Madras in these subjects. The College has a good infrastructure with Central Instrumentation facilities for research on campus. The equipment of the campus is upgraded through grants obtained from

RUSA and other Grants. The faculty has received various grants for their projects funded by DST, NFTR, ICMR , TANCHE, and TNSCST to pursue research. Moreover, the research scholars are also motivated to apply for a stipend sponsored by the Collegiate of Education, Government of Tamilnadu. The faculty and Research scholars are encouraged to have collaborative research in Multidisciplinary fields resulting in joint publications in peer-reviewed journals indexed in UGC-CARE, SCOPUS, PUBMED, and WEB OF SCIENCE. Collaboration with non-Governmental organizations and Industries is encouraged. It is also proposed to publish a research Magazine on the campus to nurture the art of writing manuscripts and promote the publication of research work. The College has a Research advisory and Ethical committee to monitor, guide, and update the research activities of the scholars. The College also follows a strict code of Ethics and Plagiarism of manuscripts or any other research materials is not encouraged. The disposal of Biowaste and hazardous materials is done according to the guidelines of CPCSEA.

6.5 - Internal Quality Assurance System

6.5.1 - Internal Quality Assurance Cell (IQAC) has contributed significantly for institutionalizing quality assurance strategies and processes visible in terms of incremental improvements made during the preceding year with regard to quality (in case of the First Cycle): Incremental improvements made during the preceding year with regard to quality and post-accreditation quality initiatives (Second and subsequent cycles)

The college caters to the needs of first-generation learners

who are mostly from marginalized societies. The College aims at Employability by bridging the gap between campus and job industry. The placement cell works on 5 major thrust areas. Awareness, Skill development, Coaching and training, job placement, and signing of Memorandum Of understanding with Private, nongovernmental organizations for training and placement. The placement cell organizes awareness programs on various job opportunities, Approach towards competitive exams, Aptitude tests, development of entrepreneurial skills, career guidance, and women empowerment. The students are offered Skill development programmes on computing skills, personality development. The Go Green club of Bharathi Women's College actively involves the students in various environmental activities like planting trees on the campus in collaboration with Parambara, Thakkan (NGOs), and HDFC (CSR). Miawaki forest creation improves the aesthetic value of the campus. The campus is enriched with a wide variety of plants (306) well-diversified herbs to large trees. The litter waste generated in the institution is composed of composting pits. The compost is used in maintaining the trees of the campus. Rainwater harvesting strengthens the water supply and enhances the water level of wells on the campus through the groundwater recharging process. Totally 8 units of rainwater wells have been set up to collect the rainwater.

INSTITUTIONAL VALUES AND BEST PRACTICES

7.1 - Institutional Values and Social Responsibilities

7.1.1 - Measures initiated by the Institution for the promotion of gender equity during the year

The institution ensures a safe and secure environment for its female students. It organizes various workshops focused on gender sensitization, addressing issues related to society, women, and girls. To maintain campus security, the college has installed 35 surveillance cameras, which are monitored from the Principal's office. The campus is well-lit, including the hostel and main areas. Safe drinking water (RO) and nutritious food are provided in both the hostel and the main campus.

For the safety and accessibility of Divyangjan (differently-abled students), wheelchairs, ramps, and accessible toilet facilities

are available in all campus blocks. A first-aid facility is provided at the NCC office and the hostel. The college also has a suggestion box, an Anti-Ragging Committee, and a student grievance redressal mechanism to address students' concerns and improve their overall experience.

7.1.3 - Describe the facilities in the institution for the management of the following types of degradable and non-degradable waste (within a maximum of 200 words)

The college follows the 3R concept: Reduce, Reuse, and Recycle. Two types of waste are generated on campus: degradable and non-degradable. The extensive flora on campus produces organic waste, which is recycled into compost using composting pits located in the Botany Department, which is home to a large number of trees. Non-degradable waste, such as plastics, is periodically collected by ITC WOW from the campus.

The e-waste generated by the Computer Science Department is regularly collected by Virogree Private Ltd. An MOU has been signed with private agencies to manage the disposal of non-degradable waste. Biowaste generated in the research laboratories is disposed of in accordance with the norms and guidelines set by CPCSEA. All necessary safety protocols are strictly followed when handling hazardous materials in the laboratory.
